

Dominion Energy's Water Energy Savings Rebate Program

Pool Pump FAQs

The Basics

▶ Why should I buy an energy efficient pool pump?

A variable speed pool pump can reduce pool pump energy use by 50% to 75%*.

▶ What kind of customers are eligible to participate in this program?

- Must be a residential Dominion Energy Virginia or North Carolina customer.
- Must live in a single-family detached residence, a single-family attached residence (such as a townhome or condo), or a single-family manufactured home (such as a mobile home or modular home).
- Is responsible for the electric bill.
- Is the owner of the home or is able to secure permission to participate.
- Must purchase and install a variable speed pool pump that meets or exceeds ENERGY STAR® performance requirements.

▶ How are the products installed?

Please reach out to a qualified contractor of your choice to install your variable speed pool pump.

Eligibility and Incentives

▶ What are the eligible products sold?

Variable Speed Pool Pumps with a minimum 1/2 horsepower that meet or exceed ENERGY STAR® performance requirements.
