

Measures for Non-Residential Compressed Air Systems Program

Item	Measure Name	Minimum Requirements	Eligible for New Construction	Incentive*
1	Efficient Compressed Air Nozzles	<ul style="list-style-type: none"> Must be a new installation or replace standard nozzles High efficiency nozzles must use less than or equal to the following ratings at 80psig: 1/8" 11 SCFM, 1/4" 29 SCFM, 5/16" 56 SCFM, 1/2" 140 SCFM 	Yes	Incentives for All Measures are up to \$0.07 per kWh Savings
2	Compressed Air Leak Repair	<ul style="list-style-type: none"> Only retrofit projects are eligible Leaks must be identified, tagged and repaired 	No	
3	No-loss Condensate Drains	<ul style="list-style-type: none"> New and retrofit projects are eligible Drains must not allow condensate to escape when purged 	Yes	
4	Additional Compressed Air Storage	<ul style="list-style-type: none"> Only retrofit projects are eligible Only compressors with load/no-load controls are eligible Must increase total system storage to at least 5 gal/cfm A flow controller must be installed at the outlet of the storage tank 	No	
5	Compressor Pressure Setpoint Reduction	<ul style="list-style-type: none"> Only retrofit projects are eligible Pressure setting on the compressor must be changed 	No	
6	Low Pressure Drop Filter	<ul style="list-style-type: none"> New and retrofit projects are eligible Pressure setting on the compressor must be changed to account for lower pressure drop New filter must have an initial pressure drop of 3 PSI or less 	Yes	
7	Heat of Compression Dryer	<ul style="list-style-type: none"> New and retrofit projects are eligible 	Yes	
8	Cycling Refrigerated Dryer	<ul style="list-style-type: none"> New projects are eligible Retrofit projects must be replacing existing non-cycling refrigerated air dryer 	Yes	
9	Desiccant Dryer Dewpoint Controls	<ul style="list-style-type: none"> New and retrofit projects are eligible Dewpoint controls must be installed on a desiccant dryer, overriding or replacing timer controls 	Yes	
10	VFD Air Compressor	<ul style="list-style-type: none"> New and retrofit projects are eligible Retrofit projects must involve replacing a non-VFD controlled compressor or a non-functioning compressor Compressor must not operate solely at full-load 	Yes	
11	Downsized VFD Compressor	<ul style="list-style-type: none"> Only retrofit projects are eligible Retrofit projects must involve replacing a larger sized non-VFD controlled compressor 	No	

Optional Audit for Non-Residential Compressed Air Systems Program

- If you require assistance identifying qualifying measures in your facility, you may choose to complete an optional audit with a participating contractor and request an audit cost reimbursement if you meet certain criteria.
- Interested customers can review the requirements with a program representative.

*For more information, please call 1-888-366-8280. This program is available until fully subscribed. Rebate and audit incentive cannot exceed 75% of the total invoice amount. Rebate amounts are subject to modifications without notice.
